

LINDEN CENTRE

The Linden Centre Short Stay Package 2010

The Linden Centre offers the intrepid traveler a true immersion into one of the world's most storied cultures. Touch the 'old' China that is elusive to most visitors, and leave enriched for a lifetime.

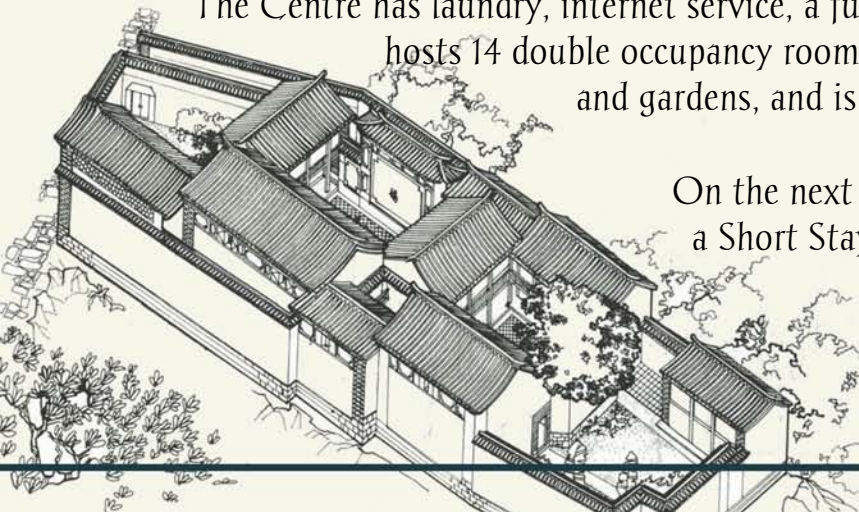

This package is for itinerary extensions and/or immersive short stays with the Linden Centre, based in Xizhou village outside of the ancient Dali city, in Yunnan Province, China. Provided below is a bullet point outline for experiencing our life-enriching cultural retreat.

While this type of structure is the fundamental basis to our unique project, please do be inclined and inspired to ask us about tailoring an experience with your ideas.

This type of programming would be inclusive of most meals and accommodations at the Centre, local area transport and pickup, and all cultural tour events and activities. We will also provide a complimentary bottle of Chinese red wine upon your arrival, and you are more than welcome to join us for afternoon tea every day.

The Centre has laundry, internet service, a full bar, and library. The Linden Centre hosts 14 double occupancy rooms among its four historical courtyards and gardens, and is fully staffed with over 18 people.

On the next page, you will find models of what a Short Stay entails for 3 day and 5 day examples.
